

**RESOLUTION AMENDING THE CONNECTION OR TAPPING FEE**

---

**MOTIONED BY:** Velazquez

**SECONDED BY:** Guzman

**WHEREAS**, the North Hudson Sewerage Authority (hereinafter "Authority") is a public body, duly formed under the Sewerage Authorities law, constituting Chapter 138 of the Laws of New Jersey of 1946, as amended (Chapter 14A of Title 40 of the New Jersey Statutes Annotated) and possesses the powers set forth therein; and;

**WHEREAS**, section 8 of said Sewerage Authorities Law provides that a separate charge in the nature of a connection fee or tapping fee, in respect of each connection of any property with the sewage system, may be imposed upon the owner or occupant of the property so connected; and

**WHEREAS**, upon proper notice, the Authority conducted a public hearing on the imposition of a connection or tapping fee on May 19, 2022 and

**WHEREAS**, the evidenced adduced at such hearing demonstrated that the proposed connection or tapping fee is reasonable and necessary; and

**WHEREAS**, both the Facilities Review Board and Finance Review Committee has reviewed the proposal and recommends the approval of the requested contract.

**NOW, THEREFORE, BE IT RESOLVED BY THE NORTH HUDSON AUTHORITY THAT THE FOLLOWING CONNECTION OR TAPPING FEE RESOLUTION IS HEREBY ADOPTED:**

1. There shall be a connection or tapping fee imposed for connection of property to the sewerage system of \$12,712 per service unit for properties in which waste flow is treated by the Authority, otherwise known as Class A users. There shall be a connection or tapping fee imposed for connection of property to the sewerage system of \$2,880 per service unit for properties in which waste flow is collected by the Authority, but not treated by the Authority, otherwise known as Class B users. Such fee shall be attributed to new connectors and/or current connectors seeking an increase in flow according to the number of service units attributed to that connector.
2. The number of service units to be attributed to each new connector shall be the estimated average daily flow of sewage for the connector divided by the average daily flow of sewage for the average single family residence in the Authority's district (300 gallons per/day).
3. Approval for a new extension shall be permitted within the service area of the

Authority when the applicable connection or tapping fee has been paid to the Authority, when the requirements of the Authority's Sewage Facility Construction Review Resolution have been fulfilled, and the connector has paid all sewer charges attributed to the property for which connection is being sought.

- 4. The fees prescribed in Paragraph 1. above shall be effective upon adoption and until otherwise revised by the Authority in accordance with procedures prescribed by statutes.

**DATED: MAY 19, 2022**
