The scope work consists of cured-place lining of 76-linear feet of 18-inch combined sewer. We are performing this work to prevent a potential collapse in a newly paved area.

The three proposals are summarized as follows:

- | | |
|-------------------------|-------------|
| 1. J. Fletcher Creamer: | \$60,838.00 |
| 2. Montana Construction | \$38,901.30 |
| 3. National Watermain | \$16,800.00 |

The low bidder, National Watermain Cleaning Company is a reputable company that has demonstrated the ability to successfully complete the work on similar projects.

Our office has contacted National Watermain Cleaning Company and they have indicated that they are willing to perform the work.

In our opinion, the Authority has received a competitive and responsive proposal for the project. Accordingly, we recommend that the Authority award the work to National Watermain Cleaning Company in the amount of \$16,800.00.

Should you have any questions regarding the above, please do not hesitate to contact me.

Very truly yours,

Mott MacDonald
